Free online classes for Ukrainian students

Russia's war against Ukraine has already displaced millions of people. Around 20-30% of the refugees are school-age children whose ability to continue their education has been hampered by the war.

Integrating Ukrainian pupils quickly and effectively into the Lithuanian education system is difficult due to language barriers, different curricula, and a lack of teachers as well as suitable schools.

This situation required a rapid response, so an online Ukrainian school was quickly established after joining forces with a private Ukrainian educational institution. Here, lessons are conducted remotely, in Ukrainian, according to the official Ukrainian curriculum, by Ukrainian teachers. This initiative is designed to provide free education to all Ukrainian pupils in grades 1-11.

All Ukrainian students are welcome to join the free lessons online at www.memby.org from anywhere in the world.

An advanced distance learning platform has been made available to Ukrainian schools by Digiklase/Memby, Europe's most advanced distance learning platform.

- School curriculum according to the official Ukrainian education system
- Private school teachers from Ukraine
- Lessons in Ukrainian
- Engaging online lessons and recordings
- Free for all Ukrainian students
- Available worldwide

- 24 teachers
- Constantly growing number of lessons
- Unlimited places for Ukrainian students

Almost 1000 Ukrainian students have already enrolled in the school. The initiative is growing rapidly, both in terms of the number of subjects and the number of teachers.

We invite you to share information about these free classes with Ukrainian students and their parents. Let's make sure that while Ukraine's soldiers are fighting for their country's future, we provide Ukraine's future - its children - with the education they need.

Donations are needed to ensure the continuation of the online school for Ukrainian children, you can contribute by visiting www.ukrainianschool.eu

Here you will also find more information about the initiative.

The initiative is supported by Vilnius Municipality, which invites other cities to join in informing Ukrainians about the online Ukrainian school.
